**1882 – 2023**

**141st Assembly**  
**June 11 – August 6, 2023**

## **The Monteagle Sunday School Assembly Prayer**

Everliving God, strengthen and sustain the Monteagle Sunday School Assembly with patience and understanding that we might love and care for your gift of this place and its people. Grant that together we might follow the example of Jesus Christ in our relationships, both new and renewed. May our gifts and talents be used for the advancement of our understanding of, and service to, the world you created for us. Help us to prepare ourselves and those generations who follow to become faithful stewards of the heritage of character and potential you so granted our Founders. We pray in the name of Christ, our Lord and Savior. Amen.

## **MSSA Loves Electric Carts, Bicycles & Walking Wouldn't You Love To Park That Car?**

The Board of Trustees, the President and Officers of the Monteagle Sunday School Assembly encourage you to enjoy the fresh air and the opportunity to stretch your legs whenever possible. We all want to do our part to protect the environment, the safety of our children and pedestrians, and the quiet and tranquility of our Assembly grounds. Here are the things you can do:

- Whenever possible, walk, ride your bike, or use an electric cart.
- Park your car. If you can, use one of our convenient parking areas outside the Assembly's fenced grounds. These parking areas are located outside the Front Gate and outside the North Gate. A free Satellite parking pass is required in these lots for security purposes.

### **Enjoy Walking MSSA Nature Trails**

In addition to the developed areas of neighborhoods and parkland linked by roads, footpaths and footbridges within the Assembly's historic Grounds, there is a system of nature trails on Assembly property that extends into the woods beyond the west and north gates of the Grounds.

Warren's Point on the plateau bluff to the north is the destination of the East and West Nature Trails. A large gazebo at Warren's Point is lined with benches that invite you to sit and enjoy the splendid view into the valley, and a stone bench further down the slope is a perfect spot for quiet reflection. Permanent picnic tables are also in place for fellowship with family and friends. The fire ring at Warren's Point is only for use during Assembly organized activities and with Assembly staff supervision.

The North Nature Trail offers a more rugged two-mile hike below the bluff line of Warren's Point. In Waldrop Woods there is a pleasant Loop Trail that begins and ends at the West (walking) Gate near where Linden and Walnut Avenues intersect, behind Cottage #142. Approximate distances and landmarks on the routes of these trails are noted on maps of the Assembly Nature Trails that are available in the Assembly office, snack shop, dining hall, and chapel.

Warren's Point and the Monteagle Sunday School Assembly Cemetery may also be accessed by walking along the gravel road that extends towards the left beyond the North Gate of the Assembly Grounds.

**"You will show me the path of life; in your presence there is fullness of joy,  
and in your right hand are pleasures for evermore."**

**Psalm 16, verse 11**

# MONTEAGLE SUNDAY SCHOOL ASSEMBLY

## History of the Monteagle Sunday School Assembly

In April 1882, the Sunday School Convention of Tennessee sought to establish a Sunday School Congress for the following summer. In October the charter was drawn for the Monteagle Sunday School Assembly. The Board then selected a site, hired a landscape engineer, from Rochester, New York, to lay out the grounds and planned a program. The Monteagle Sunday School Assembly opened its first session on July 17, 1883, for the purpose of “the advancement of science, literary attainment, Sunday School interests, and the promotion of the broadest popular culture in the interest of Christianity without regard to sect or denomination.”

The Assembly was an immediate success in spite of the fact that a restaurant and amphitheater were the only permanent structures on the Grounds the first summer. An ambitious building program soon resulted in scores of boarding houses, public meeting rooms, and private cottages to accommodate the thousands who visited the Assembly each year for the summer season. For a number of years before southern colleges and universities offered summer courses on their campuses, summer schools at the Assembly were popular. School teachers from across the South thronged to Monteagle to attend classes that broadened their educational experience.

In its early years the Assembly maintained close ties to the Chautauqua Institution at Chautauqua, NY, the original or “Mother” Assembly, founded in 1872. Chautauqua’s goal was to combine the training of Sunday School teachers with a broader program of religious, educational, and cultural enrichment. The national Chautauqua Literary and Scientific Circle (C.L.S.C.) program held annual graduation ceremonies for southern students at the Monteagle Assembly, its recognized regional headquarters. In the early 1900s, as part of a coalition known as the International Chautauqua Alliance, the Monteagle Sunday School Assembly presented nationally known lecturers, ministers, and artists in the Auditorium.

World War I, the Great Depression, and World War II took their tolls on the Monteagle Sunday School Assembly. Fewer people in attendance meant declining revenues and many programs were discontinued. Some cottages stayed vacant year after year. Yet the Assembly continued with a summer session each year, offering basic religious, platform and youth programs for all who came.

The 1960s and ’70s brought a reawakening of interest in the Monteagle Assembly and its programs. Families reopened and repaired cottages, and endowment funds were established as a means to rejuvenate the worship programs and other activities. The Centennial Celebration in 1982 was a catalyst in promoting interest and participation in the Assembly community, and in underpinning historic preservation efforts through designation as a Historic District listed in the National Register of Historic Places. Events of the Assembly’s first 100 years were chronicled in a souvenir publication, *Mountain Voices: The Centennial History of Monteagle Sunday School Assembly*. Ties to the mother Chautauqua Institution in New York were reestablished through membership in a growing “Chautauqua Network,” and an Archive for the collection and preservation of Assembly records and memorabilia was established.

Today the Monteagle Sunday School Assembly continues to honor its history and mission with a rich and varied schedule of religious, educational, cultural, and recreational programs for all ages. Assembly members and visitors affirm their commitment to the purpose of the Assembly by their support of these programs. In doing so they continue, in the words of the Rev. William H. Elder, III, ‘the marvelous legacy of Christian human beings who have sought ways to cherish, nourish, renew and share their faith in an environment at times mistaken for Eden.’

## Woman’s Association 2023

*Motto: “Each for the other, all for Monteagle”*

Organized in 1887, the MSSA Woman’s Association has played a vital role in the development of the Assembly by providing hospitality, financial support, and meeting space for all aspects of the program. Centrally located on the Mall, the Association’s cottage, Winfield, houses the Assembly library and is staffed by a resident Hostess/Librarian. Winfield was acquired in 1960 when Assembly member Ella D. Winfield bequeathed her property to the Assembly. The Fletcher Guest Wing, made possible by a fund established in memory of Gertrude Bowling Whitworth Fletcher, was added to accommodate Platform guests. Winfield is the location for many activities during the season, including Sunday School, parents’ meetings, workshops, children’s story hours, and card parties. There is always a warm welcome on the Winfield porch. Membership is open to all women who wish to support the Woman’s Association and its activities.

# MONTEAGLE SUNDAY SCHOOL ASSEMBLY

## Youth Program

The youth have been an integral part of the Assembly from its beginning, and many consider Monteagle a place where children can develop both spiritually and physically in a safe environment. Throughout the summer season, a Youth Coordinator, Christian Education Coordinator, Kindergarten and Crafts Director, and other Youth Staff supervise high quality activities for children of all ages.

Children are encouraged to participate in their age appropriate groups and in all phases of Assembly life; however, our mission places a high value on family, and **parents should still consider themselves completely responsible for their children's behavior** whether they are at home or participating in Assembly functions. **The Assembly youth staff is not to be considered as babysitters, and parents should be prepared to supervise their children at movies, lectures, or concerts and other events. In many cases, adult accompaniment will be the best choice.**

### Weekly Youth Parents Meetings:

These meetings are a great way to be in the loop about the week's activities, any schedule changes, and volunteer needs. We hope you will plan to attend these half-hour meetings held each Tuesday from 10:15-10:45 AM on the porch at Harton Hall.

### Excursions:

Age-appropriate excursions have been planned for each week. Please refer to the Auditorium bulletin board (located in the front of the Auditorium) each Monday for information on the specific excursions for your child's age group as well as information for All Assembly Excursions. Additional information will be available at the Youth Parents' Meeting each Tuesday at 10:15 AM at Harton Hall porch and may also be obtained from the Youth Coordinator. For excursions away from the Assembly, parents are advised to use discretion in allowing their children to participate. Eagles must be accompanied on excursions by a parent or a responsible adult. Children under the age of twelve will not be allowed to ride in cars with the youth staff, so parents should plan to drive their own children on excursions.

### Bicycle and Bridge Safety:

We want all Assembly youth to be safe and enjoy their mountain experience. Parents, please help us to help your children stay safe. All cyclists within the Assembly grounds must abide by the laws of the State of Tennessee regarding bicycle safety. In addition, there are specific Assembly rules that strictly forbid the riding of bicycles on footbridges or tennis courts and require that pedestrians on Assembly footpaths be given the right of way. **Infractions of the bicycle safety rules may result in the loss of bicycle privileges.**

### Curfew:

The Youth Committee recommends these as appropriate times for children to be home:

Children under 12 years: 10:30 PM

Children 12-14 years: 11:00 PM or immediately following a youth event for this age group

Children 15-17 years: 11:30 PM or immediately following a youth event for this age group

**There is an established midnight curfew for all persons 18 years of age and under.**

# Bridges to the Future Campaign

The purpose of the *Bridges to the Future Campaign* is to encourage members and friends of the Montecagle Assembly to remember the Assembly in their estate plans. The campaign will help insure the future of the Assembly for generations to come. Today, we are able to enjoy much of what we cherish about the Assembly due to the generous gifts of members in the past. Now through the Bridges Campaign, each of us can help insure that future generations will have the same opportunity to share in this wonderful place as our children and grandchildren are having.

To date we have had one hundred and five members or families who have made a commitment to remember the Assembly in their estate plans. They are listed below.

A different approach this year will focus on helping participants achieve finished paintings from a selection of images that they will be encouraged to bring to the class. Instruction will still cover the basic elements required to master painting in transparent watercolors. Attention will be on guiding each student to define what he or she wishes to capture in the choice of subject matter. Beginner to intermediate levels. Some drawing skills are helpful. Photographs of a range of subject matter provided for those who don't bring images. Students provide their own materials unless they arrange otherwise to purchase a starter kit containing brushes, pigments, and paper. Our goal is to have fun while appreciating how many variables come into play in creating paintings in this very expressive media – that often has a mind of its own! \$25 class materials fee, maximum 10; reserve a kit for \$50.

### **Tues. & Wed., Weeks 1-8, 9:00-9:30 a.m., Warren Chapel**

### **Tues. & Thurs., Weeks 1-8, 8:30 a.m., Pool**

Bring a dish to share with other families who are at the Assembly for the week. Meet new friends and greet old friends, too. The minister of the week will join us with their families to get to know us, and it will be a great chance to get to know them as well. We will welcome them, and all of you, to the Assembly! The main dish is provided as well as paper products, water and lemonade. So bring a dish to add to our feast! When the bell rings for Twilight Prayers, we are all invited to join in the Twilight Prayers service. A great time of fellowship! No fee, no sign-up.

### **Tues. & Thurs., Weeks 1-8, 8:30 a.m., Pool**

Aqua yoga moves traditional yoga postures into the water, to better support joints and lessen the cardio impact of the practice. These classes will also be gentle, in that we will move from one pose to the next at a relatively slow pace and hold the poses longer. Our goal will be to stretch big muscle groups (especially hips, back, and legs) and calm the nervous system. This accessible yoga class will leave you feeling refreshed and calmed. It's open to everyone, regardless of body type/shape, gender, yoga experience (or lack thereof), or mobility challenge. If you can get in and out of the pool, we will make this class work for you! For more than 90 years, Highlander's educational methodologies for social change have inspired generations of educators, activists, historians, community organizers, scholars, and others across the US and the world. While not affiliated with any particular religious or spiritual tradition, Highlander's work has roots in the Social Gospel movements of the early 20th century and has often influenced (and been influenced by) religious and spiritual movements for social, economic, ecological, and cultural change. These lectures will bring two of Highlander's core educational methodologies, popular education and cultural organizing, into conversation with a selection of sacred texts chosen for what they can illustrate individual and community responses to learning, change, and transformation.

All children deserve a safe, comfortable place to lay their heads. In Tennessee and across the US, too many boys and girls go without a bed—or even a pillow—to sleep on. These children end up sleeping on couches, blankets, and even floors. This can affect their happiness and health. Come out to the VFW and help us give back to the community!

**Sat., July 8, TBA, Meet at Auditorium**

**River Adventure:** Time and fee to be announced.

(Advance sign-up required at Auditorium bulletin board)

##### **Yoga Flow:** Anneli Virkhaus, instructor

The class begins with focus on breathing, followed by gentle warm up poses, then moves into a flow based on the sun salutation series, and ends with some gentle cool down stretches. Every class ends with a long resting pose or savasana and Anneli plays live sound healing music with her guitar, voice, and singing bowls. This class is appropriate for all levels and modifications will be offered.

The minister of the week will join us with their families to get to know us, and it will be a great chance to get to know them as well. We will welcome them, and all of you, to the Assembly! The main dish is provided as well as paper products, water and lemonade. So bring a dish to add to our feast! When the bell rings for Twilight Prayers, we are all invited to join in the Twilight Prayers service. A great time of fellowship! No fee, no sign-up.

Monday afternoon and Tuesday through Friday mornings will feature a combination of lecture and detailed hand analysis; remaining afternoons will be actual duplicate play supported by the Bridgemate electronic scoring system. Some special topics will include Declaring at No-Trump, including the "Rule of 7"; Declaring at Trump, including proper finessing techniques; and defensive signaling,

Open to adults, no fee, no sign-up

### **Tues. & Thurs., Weeks 1-8, 8:30 a.m., Pool**

Aqua yoga moves traditional yoga postures into the water, to better support joints and lessen the cardio impact of the practice. These classes will also be gentle, in that we will move from one pose to the next at a relatively slow pace and hold the poses longer. Our goal will be to stretch big muscle groups (especially hips, back, and legs) and calm the nervous system. This accessible yoga class will leave you feeling refreshed and calmed. It's open to everyone, regardless of body type/shape, gender, yoga experience (or lack thereof), or mobility challenge. If you can get in and out of the pool, we will make this class work for you! Before **Lynn G. Beck** was a writer, she was a reader—a voracious reader. It was likely this love of reading that led Lynn to choose English as her academic focus. Lynn earned both a BA and MA in English. She taught English at Ole Miss, Belhaven University, Jackson Prep, and the Ensworth School before pursuing a PhD in Education and Human Development at Vanderbilt. Lynn's career then shifted to higher education, where she served as a professor at UCLA and the University of Alabama and as an academic dean at Pacific Lutheran University and the University of the Pacific. She retired in 2017, and she and Steve Brallier moved from the west coast to Sewanee, Tennessee. It's been her great privilege to help with the telling of Mitka's story by doing much of the research and editing to support Steve's remarkable writing.

Week 1 lecturer

**Father Jay Biedenharn** has served as rector of Saint John's Episcopal Church since 2019. When growing up in Vicksburg, Mississippi, Jay would have never dreamt that one day he'd be an Episcopal priest living in Memphis. It's a great story and he'd love to tell you about it. When he's not

doing the life-giving and sacred work of a parish priest, you'll find him learning how to swing a tennis racquet or fishing rod. Father Jay believes words matter, so you'll usually find him reading something. Jay, his wife, Louise, and their two daughters live in Central Gardens.

Week 2 guest minister

The **Rev. Chris Bowhay** is absolutely delighted to serve as the thirtieth Rector at St. Peter's Episcopal Church, Columbia. A native of Northern California who was ordained in 1992, Chris has degrees from UC Berkeley, Stanford University, and St. Joseph of Arimathea Anglican Theological College. Prior to his call to St. Peter's, he served congregations in Georgetown (Washington, DC), San Francisco, Houston (St. Martin's, the largest Episcopal church in the country, and St. Thomas' Church and School with over 700 K-12 students), and St. George's, Nashville. His sermons and articles have been featured in the Mockingbird Ministries ([www.mbird.com](http://www.mbird.com)) and in 2020 he hosted *The Circle Unbroken*, a nightly program on WKOM 101.7 FM and WKRM 103.7 FM (*Front Porch Radio*) that presented interviews and conversations among leaders of faith communities and helping agencies in Maury County. He and his wife, Sally (and their Goldendoodle, Bear) live in a bucolic farmland paradise, surrounded by sheep and cattle, from which they make regular trips northward to see their daughter Augusta in Nashville. He enjoys cooking, movies, books about contemporary culture, and—having recently completed his first class in improv—live comedy.

Week 5 guest minister

**Steve W. Brallier** is both a collector and teller of stories, a quality he likely developed in his childhood on the western highlands of Kenya. The oral traditions of Luhya storytellers together with the panoply of everyday experience delighted him and his brother and sisters. After graduating from Cornell, Steve worked for two years as Director of Public Information at Anderson University. When an opportunity came to become a concert promoter, he became the founding manager of Spring House Productions in Alexandria, Indiana, and, later, for Brallier Productions in Nashville, Tennessee. In 1987, Steve became an agent for the William Morris Agency in Nashville, a position he held for 12 years. After leaving William Morris, he worked for many years as an independent contractor in several roles within the entertainment industry. Steve retired in 2012 and has been devoting himself to writing, golf, and caring for his mountain cabin in Sewanee, Tennessee. In late 2016, he was asked to write the story of Mitka Kalinski, a survivor of abandonment, four concentration camps, and slavery to a Nazi officer. Mitka's resilience, courage, and joy in the face of deep loss and trauma is the focus of *Mitka's Secret*.

Week 6 performance

**Bruno Durant** of Silver Bait Worm Farm grew up on a dairy farm in France and went to college to be a teacher, but became very interested in agricultural and fertilizing. As a result, he started researching worms for compost and decided to visit the US to learn more about worms and compost. He realized there was a market for industrializing the fishing bait market and made the decision to move to the US in 1993. It was then that he began his business raising and growing worms in a chicken house in GA. He continued to research the fishing market and made another decision to move to Coalmont, TN, just a few years later. Coalmont was the ideal location for a few reasons, including lower property prices and the centralized location, no more than an 11-hour drive in any directions for approximately 70% of the fishing market. The farm started with 50,000 square feet and has expanded to more than 400,000 square feet. Durant has designed and assisted in the engineering of all the buildings, which are category 2 tornado safe, filled with machines, mixers, feeders, conveyors, and much more. They are vertically integrated, growing more than 500 acres of corn; the farm also includes a rock quarry that gives enough blasted rock to last 10 years and a concrete plant. Additionally, they have their own peat farm in Florida and their own trucking division for the transportation of route deliveries. They employ electricians, welders, and a machinist, to name a few of the specialty positions. During the peak season, they employ approximately 80 employees and about 40 during the off season. The Silver Bait Farm prides itself in its dedication to customers. They never miss a delivery, ever. If an order is received by 3 p.m. today, the customer has the order in their cooler by 6 a.m. the next morning. They have the outstanding honor of being the biggest worm farm in the U.S.

Week 4 lecturer

**Rev. Jodi McCullah**, M.Div., (Vanderbilt Divinity School, 2007) is a retired Elder in the United Methodist Church, author, veteran, and co-founder of Soldiers And Families Embraced (SAFE) ([soldiersandfamiliesembraced.org](http://soldiersandfamiliesembraced.org)), a nonprofit offering free counseling to combat veterans and their families. She retired from ministry in 2022, after last serving Morton Memorial United Methodist Church in Monteagle. In 2011, at the height of the US military’s largest scale armed conflicts since the Vietnam War in Iraq and Afghanistan, Rev. McCullah served as the campus minister at Austin Peay State University in Clarksville, Tennessee, which is adjacent to Fort Campbell, Kentucky. At the time, more than 17,000 Soldiers were deployed into combat from the fort, which had the highest suicide rate of any other base in FORSCM. Veterans, their spouses, and their children began bringing to campus the effects of multiple, year-long combat deployments, including Post-Traumatic Stress Disorder and Traumatic Brain Injuries. In response, with the help of a veteran studying social work, Rev. McCullah began a free and totally confidential counseling

program based on the story of Lazarus emerging from the tomb, still wrapped in the trappings of war and death. SAFE continues today providing free counseling to those affected by all wars. Rev. McCullah is married to Robert Maier, with whom she shares six children and five grandchildren. She writes and speaks about her work with veterans who received undeserved dishonorable discharges because of PTSD and undiagnosed TBI. Other current writings can be found at [www.emptyingthebackpack.com](http://www.emptyingthebackpack.com).

**Bradley Moody Mims** is a multi-generational Assembly goer, elementary school teacher, and lover of art. (And she's lifelong friends with her co-facilitator, Colby Henderson-Black!) Bradley lives in Columbia, Tennessee, with her husband, Conner. She teaches second grade and enjoys crafting and exploring her riverside community.

Week 2 workshop facilitator

**Judson Newbern's** artistic motivation is the lifelong pursuit of expanding skill sets for capturing inspiring subject matter. He believes that quality design from a small painting to configuring large landscape spaces requires mastery of similar fundamentals—only the materials and parameters change. As a landscape architect, he oversaw the design and planning of the Vanderbilt University campus for 30 years, learning a great deal about space and composition. Having begun watercolor

lessons at age 10 on the Outer Banks of NC, he expanded into oils and acrylics in college. Maintaining the practice of painting complemented working in a design field and allowed Newbern to return his focus to art several years ago. Serving on the board of a plein air painting group in Nashville inspired watercolors to become a focus as they can quickly capture the changing images drawn from nature. Painting is quite rewarding if you enjoy it on your own level and don't worry about what anyone else is doing!

Week 1 workshop facilitator

**Liz Norell** is a political scientist/professor, yoga teacher, and life coach. She holds a Ph.D. in Political Science from the University of Texas Dallas and master's degrees in library science and journalism. Since 2013, she has worked part-time with the Assembly's Platform staff in a variety of roles. She also taught aqua yoga classes several summers to a small but dedicated group of Assembly members and guests. She considers herself a political psychologist and is most interested in how and why extreme political attitudes take root—and how to soften them. Her training and occasional work as a yoga teacher and life coach complement her academic work well and have contributed to her interest in facilitating great teaching and learning. Having recently been diagnosed as Autistic, she is passionate about dispelling myths of how Autism shows up in adults, especially women, and hopes her experiences can help others build greater compassion and understanding. When she's not puzzling out how to make college classes more engaging, she's probably sitting in a comfy chair with a book, with her dogs sleeping nearby. Liz is beginning a new job at the University of Mississippi in July 2023 and will miss her Assembly friends dearly.

Week 3 lecturer

She is author of a science memoir *The Plant Hunter: A Scientist's Quest for Nature's Next Medicines* (which was named one of the best books of 2021 by Kirkus). She was selected as one of the inaugural recipients of The National Academies Eric and Wendy Schmidt Awards for Excellence in Science Communication.

Ross enlivens spaces and works magic with his refined Southern aesthetic. His lush designs reflect his traditional style as well as the passions and preoccupations of his clients. His work has been published in *Traditional Home*, *Southern Style*, *Southern Lady*, *The Cottage Journal* and many other publications. He appears multiple times a week on national and international TV, including *CNN*, *BBC*, and *CNN International*. A Rhodes Scholar, Dr. Sabato is the founder and director of the University of Virginia's Center for Politics, and has had visiting appointments at Oxford and Cambridge universities in England. Dr. Sabato is the editor and lead author of the newly released book, *A Return to Normalcy?: The 2020 Election that (Almost) Broke America*, which explores the 2020 election and its outcome. Professor Sabato heads up Sabato's Crystal Ball, which the Pew Charitable Trust recognized as the #1 leader in the field of political prediction, and *The Daily Beast* designated it as one of the top political sites on the web. A thorough statistical analysis of all 2018 prognosticators found that the Crystal Ball was the best (Nate Silver of 538.com was second). *Harvard Political Review* just named the Crystal Ball #1 in predicting the Electoral College in 2020, getting 49 of 50 states correct as well as two competitive congressional districts that have one electoral vote each (NE-2 and ME-2): "While crystal balls may not exist in real life, Larry Sabato's editorial team might be the next best thing." Dr. Sabato has received four Emmys for the PBS television documentaries *Out of Order*, which highlights the dysfunctional U.S. Senate; *The Kennedy Half Century*, which examines the life, assassination, and lasting legacy of President John F. Week 3 lecturer

**Laurie Saunders** (Laura) is delighted to be back at the Assembly, where she spent every summer while growing up. She also thanks her cousin, Jane Dalrymple-Hollo, for the hospitality of Shadowlawn. Laurie is a special writer at the *Wall Street Journal* and the current writer of *Tax Report*, which is the oldest column at the paper and a favorite with readers. As taxes sit squarely at

the intersection of economics and politics, there's no shortage of material. While Laurie's columns have covered topics ranging from dubious Maltese pension plans to cryptocurrency taxes and secret Swiss bank accounts, she specializes in investment taxes and tax-favored retirement plans such as Roth IRAs. When not writing about taxes, Laurie is often reading, and she has published critical essays on Ralph Ellison, Flannery O'Connor, and Herman Melville. She earned a B.A. from Sewanee and an M.A. from Columbia University. Students at SSMF range from early high school all the way to doctoral school in their studies of music. **Christi Teasley** enjoyed summers in the Assembly growing up and as a member of the MSSA youth staff (including stints working in the snack shop, crafts, hummingbirds, and as a lifeguard) in the 1980s. Christi discovered her love of repeated patterns and printing fabric as a high school student at St. Andrew's-Sewanee School and honed her study of textile dyeing, printing, and surface design at the Rhode Island School of Design. Christi's studio practice centers on crafting works of cloth and paper, utilizing both new and traditional processes of natural dyeing, printing, mark-making, and stitching to create table linens, valentines, tuffets, and works for walls. She taught studio art and directed the SAS Gallery and Visiting Artist Program at St. Andrew's-Sewanee School. She now continues to work on the leadership team for Shakerag Workshops, a top-notch series of studio workshops for adults which are held on the SAS campus each June.

Week 7 workshop facilitator

**Tracy Acoustic Band**, which does not always include the same musicians, follows the pattern of most Appalachian bands. Folks would gather for a threshing, a wedding, a barn-raising, or perhaps even a funeral, and whoever showed up would form a spontaneous "band." Sometimes these musicians would have never played with each other, but just as often would have played together for many years, sometimes even generations. Inevitably these casual groups overlapped, and this gave rise to interesting cross-pollinations of musical styles. So, while the basic tunes may have been known throughout an area, the spontaneous improvisation would always be fresh and new. This is what has kept this music alive and what you hear when Tracy Acoustic Band plays together in Monteagle. The band members feel that if they were to make this music polished and commercial, it would lose its appeal.

Week 4 performance

Anneli is a board certified music therapist, a certified sound and energy healer, and a certified yoga teacher (RYT-200). Come experience a class with Anneli!

She has 13 years of experience working in school systems in Virginia and Ohio and has a valuable blend of training that serves her well when working with parents and families both in and out of schools. Katherine's passion for supporting parents as they navigate through life stemmed from her own personal transition to motherhood ten years ago. She started Katherine Walters Consulting in 2022 and works with parents and families across the country. Her favorite childhood memories are spending her summers in Monteagle. Katherine lives in Naples, Florida with her husband, Billy, and their three sons, William, Wyatt and Reed.
