Campus Master Planning Update

We wanted to give you a quick update as we wrap up the Campus Master Planning process. Join us at the Town Hall on June 17 to see and discuss the plan. Judson Newbern, former planner at Vanderbilt University, provided us with the needed background on the goal of master planning and gave invaluable assistance as we shaped your ideas into a plan which will be shared this summer. Judson will join us at the Town Hall to answer any questions.

In short, the master plan provides a view of the use of existing properties and potential acquisitions in ways that support the mission of the Assembly in the future. The master plan does not address short term specific uses of property. Short-term use is in scope for the standing committees.

Based on this premise we took the ideas gathered in town halls and interviews and created “zoning” categories based on types of use (.e.g. Assembly operations, Community & Neighborhood, Recreation, Green Space) and then worked to identify a “zone” for each area of the original campus and acquired land. The plan will be in the form of a digital zoning map that standing committees can use to plan projects/use of our property.

SAFETY FIRST

The MSSA security team is at your service. If you have any emergency --medical or otherwise-- call 911, but our seasoned team is here to help for non-emergency situations. If you have a safety issue or see suspicious activity anywhere on the grounds or at the Point, don't hesitate to call (931) 607-8615 after 5 pm or call the office during business hours. There are no silly concerns--it's better to call and quell your fears than to let something go because you are afraid of a false alarm.

Consider putting the security number by your home phone and/or plugging it into your cell phones.

Kids got cell phones? Plug the security number in those too.

Together we'll keep MSSA the safe haven it is!
